

Light tillers: Nano NANO 40B

Features

- > 6 dismountable forged tines (straight riveted knives)
- > Foldable and height adjustable handlebar
- > Transmission by chain, dismountable and greased
- > Versatile tiller which can be used with accessories
- > Belt tension clutch
- > Transmission shaft Ø 20 mm
- > Double rear transport wheel

Technical information

Recommended area	< 500 m ²
Working width	20 / 30 / 46 cm
Gears	1 forward (160 rpm)
Working tools	6 tines Ø 240 mm
Weight	26 kg
Engine	Briggs & Stratton 550 series
Displacement	127 cc
Net power ¹	2,39 KW to 3600 rpm
Nominal power	2,3 KW to 3150 rpm
Fuel tank capacity	2 L

Practical information

Packaging	Carton box
Box dimensions (Lxlxh)	650 x 460 x 510 mm
Quantity per pallet	16
Pallet dimensions (Lxlxh)	1350 x 950 x 2180 mm
Product code	6000020502
Gen Code	3700304803112

¹ The Engine power output indicated in this document is a net value measured by testing a motor according to the SAEJ1349 norm at a given engine evolution speed. The power of another motor may be different from the indicated value. The true power of a motor depends on several factors such as engine evolution speed, temperature, humidity, atmospheric pressure, maintenance and others.
